

NEW! FROSTED FUSION COLLECTION

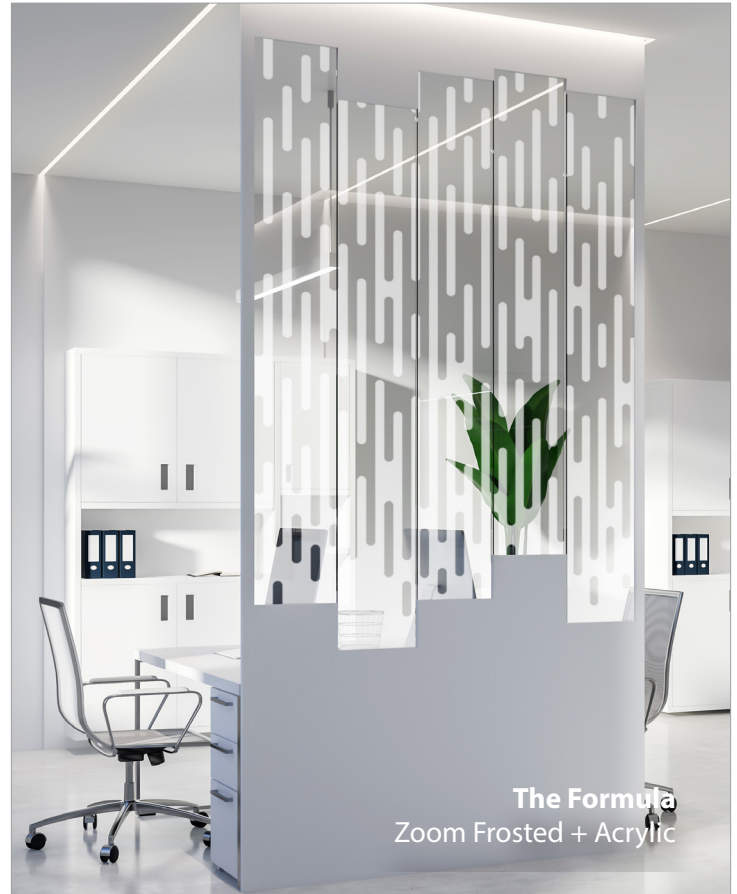

ATI's **Frosted Fusion Collection** offers over 20 exclusive designs combined with a variety of clear substrates to create the look of frosted glass at an affordable price. Our clear substrates include Acrylic and Polycarbonate, making Frosted Fusion perfect for divider panels, semi-private panels, retail displays, inserts, and more. These substrates are available in 4' x 8' size, in various thicknesses. It is truly the icing on the cake of any room design.

Frosted Fusion designs range from nature-inspired motifs like Abstract Flower Frosted and Pine Cones Frosted to minimalist patterns like Zoom Frosted and the intricate, woven design of Jacquard Frosted. Much like other collections featured in our ever-expanding Fusion Idea Library, many design expansions are planned for Frosted Fusion in the future.
